

QUAKER V-SERIES

COMMERCIAL VINYL SOLUTIONS

V100 SERIES / V200 SERIES / V300 SERIES

QUAKER
COMMERCIAL WINDOWS AND DOORS

THE QUAKER DIFFERENCE

For more than 7 decades, The Quaker Difference has meant providing more than just windows and doors. It's delivering innovative solutions, through a standard of quality, engineering and craftsmanship that distinguishes us from all other window and door manufacturers in America. That commitment continues with our V-Series of commercial vinyl products.

The Material of Choice

- Commercial Vinyl is 20% thicker than many other brands
- Certified Performance Ratings up to CW
- Will hold its shape and stand up extraordinarily well to harsh elements.

Testing To The Max

- Independently tested to both gateway and maximum sizing
- Take vinyl higher than ever before with strong design pressure ratings from 35-50
- V300 is Impact Tested

Proper Installation Assured

- Integral nail flanges standard on all products
- Sub-sill options
- Variety of interior and exterior trim packages expand project flexibility

Endless Exterior Colors

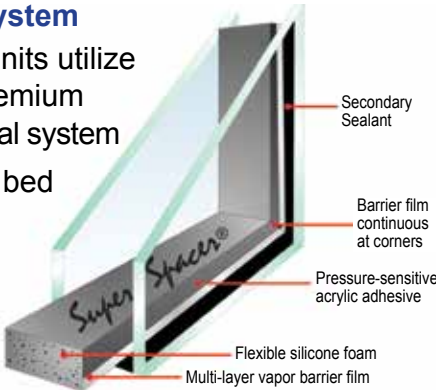

- Optional high-performance exterior paint meets highest standards for vinyl
- Flawless finish
- Custom colors easily available

Modern Textured Colors

- Ideal cost-effective color option
- For Interior and Exterior (some limitations apply)
- Available in Black and Dark Bronze

Quaker Spacer System

- Insulating glass units utilize Super Spacer Premium Enhanced dual seal system
- Secondary back- bed seal
- Unparalleled performance and longevity

Tailored Glass Packages

- Energy-efficient choices for every part of the country
- Sound-attenuation options
- Additional safety with tempered or laminated glass options

Harmonizing With Doors

- Sliding Vinyl Doors
- Aluminum Terrace Doors and Sliding Doors can be the perfect compliment
- ADA compliance available (some limitations apply)

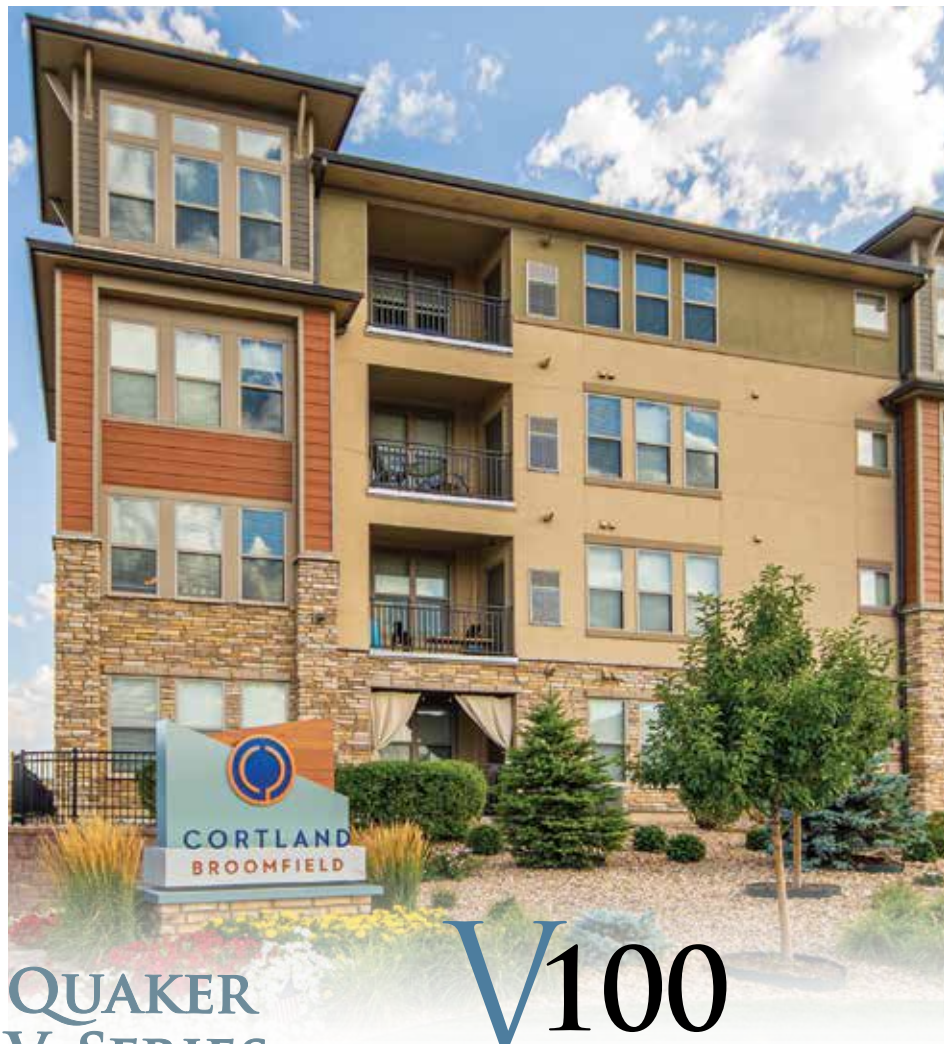

Stretching Limits

- General C-Mull
- Reinforced and structural mulling options
- Confidently use combination units without sacrificing design pressure

Project Design and Support

- Dedicated team of Commercial Support Specialists
- Quaker's professionals will help from quote phase through project management

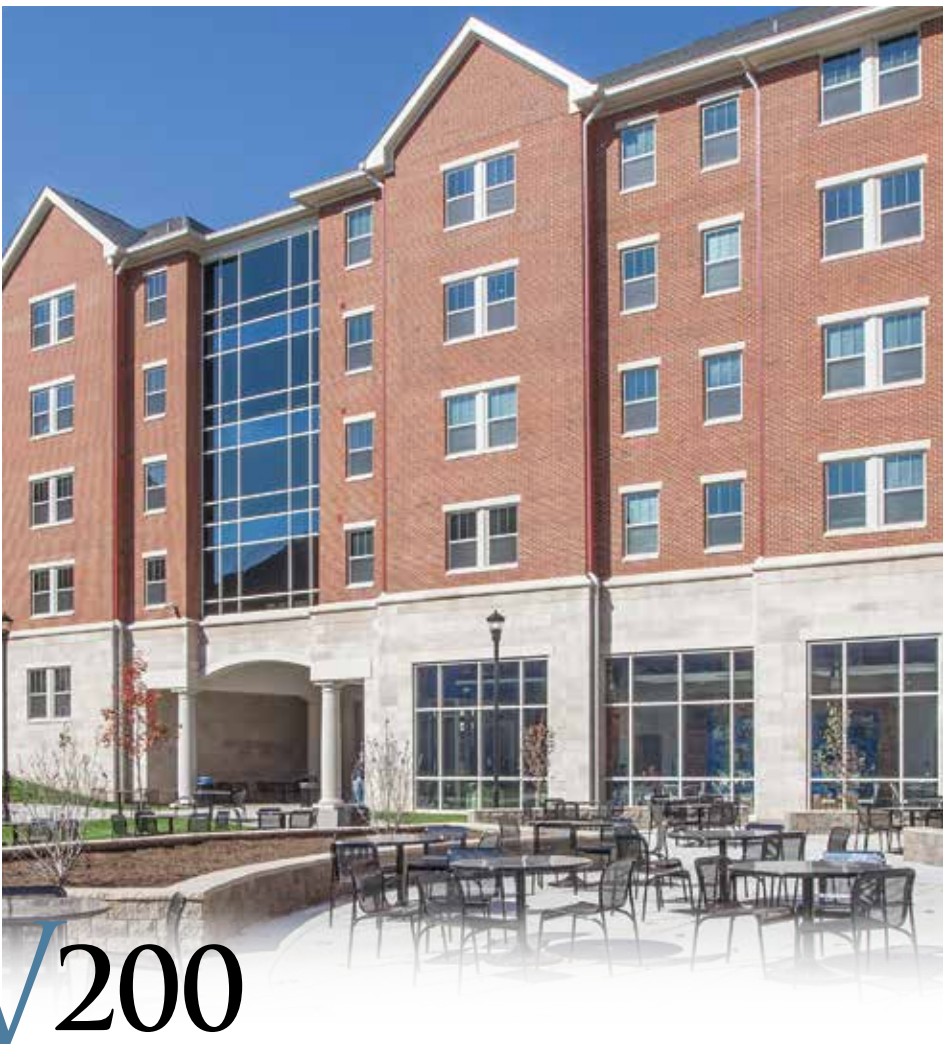

QUAKER V-SERIES WINDOWS

V100

**The ideal choice
for your budget
conscious project.**

*DP35 R Performance Range
1-4 Stories*

- Single Hung, Horizontal Slider and Fixed Window models
- Matching Sliding Glass Door
- Value-added product with no drop-off in built-in quality
- Clean exterior appearance with slightly-beveled profile
- 100% virgin vinyl frame and sash for added strength and durability.
- Fusion welded corners in frame and sash. No corners screwed together with gaskets.
- Optional accessories such as pre-cut and mitered J-Channel make for a friendly installation.
- Optional high performance textured black laminate exterior coating.
- One of the Industry's Best Warranties.

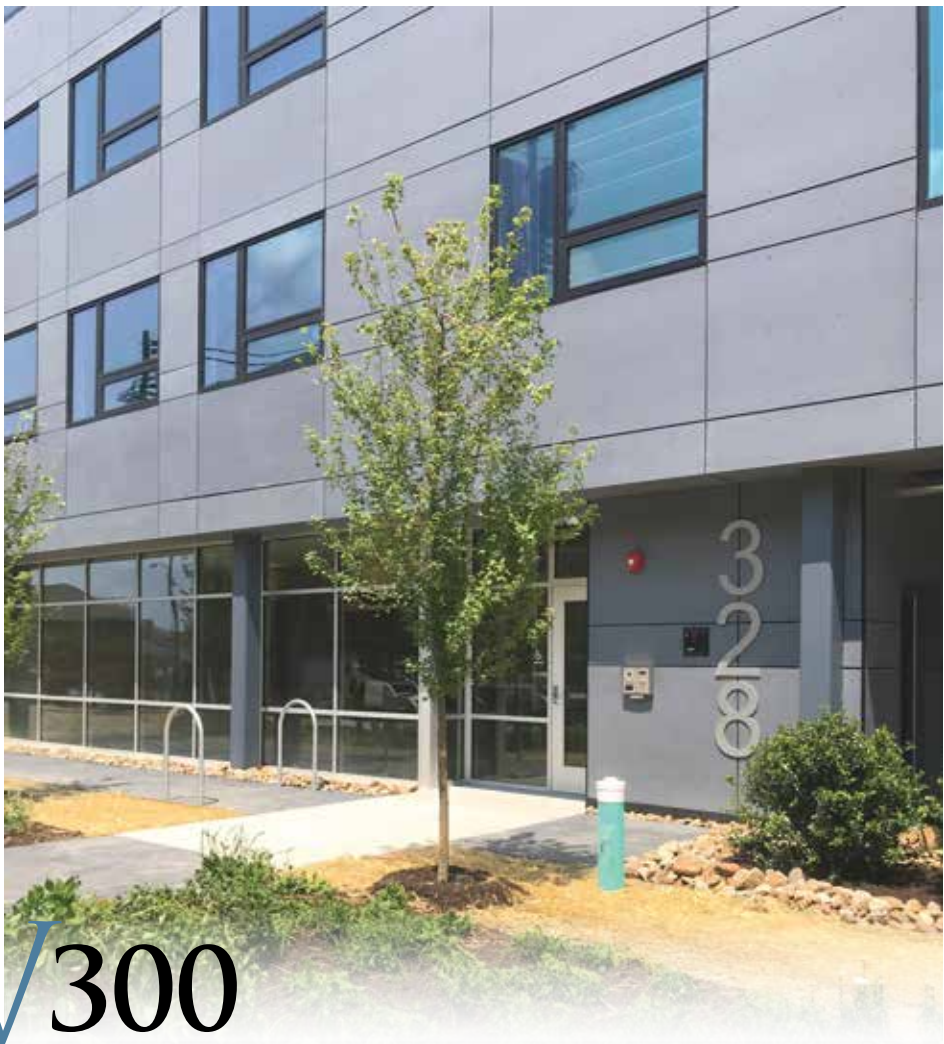

V200

**Provides design
flexibility, energy
savings and budget
advantages**

*DP35/DP50/LC30 Performance Range
1-6 Stories*

- Single Hung, Double Hung, Horizontal Slider, Casement, Awning, Fixed Window models

- Standard or custom sizing
- Faux Brickmold exterior appearance
- 100% virgin vinyl frame and sash for added strength and durability.
- Fusion welded corners in frame and sash. No corners screwed together with gaskets.
- Optional Painted exterior
- Optional high performance textured black laminate interior/ exterior coating and textured dark bronze exterior coating

V300

**A vinyl alternative to
design professionals
whose only options
traditionally were
aluminum and wood
for low- to mid-rise
buildings.**

*DP 50 (CW 50 Certified)
Performance Range
1-10 Stories*

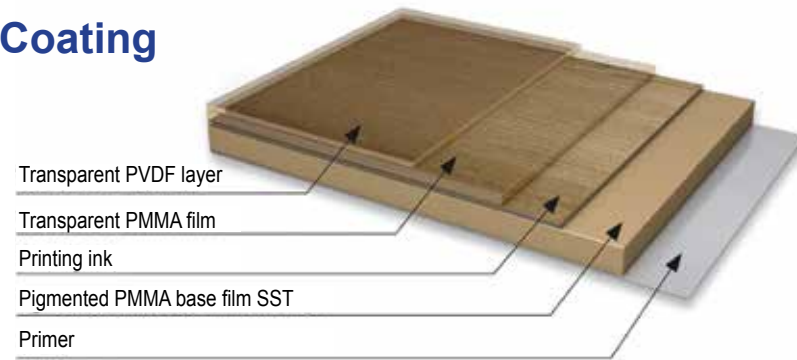

- Casement, Awning, Fixed Window models
- Standard or custom sizing
- Impact-tested (V700 Series)
- 100% virgin vinyl frame and sash for added strength and durability.
- Optional Painted exterior
- Optional high performance textured black laminate interior/ exterior coating and textured dark bronze exterior coating

- Fusion-welded corners in frame and sash. No corners screwed together with gaskets.
 - Custom sizing for taller and wider openings to meet your project specifications.
 - Clean exterior appearance
 - 1" Insulating Glass
 - Optional 1-3/8" glazing for optimal energy efficiency and enhanced sound attenuation.
 - Commercial-grade hardware, unlike competitors who use residential grade hardware.
 - Aluminum reinforced hardware fastening for added strength and long-lasting performance.
 - FlexScreen® system on operating units
 - Single operator flip latch opens all size casements, which eliminates need for a chair or ladder to operate tall windows.
 - One of the Industry's Best Warranties.
- PHIUS Certified (*Casement/Fixed*)

FEATURES AND OPTIONS TO MATCH YOUR REQUIREMENTS

High-Performance Laminate Coating

High-performance laminate coating is manufactured in accordance with RAL GZ 716/1 requirements and carries a 10-year warranty.

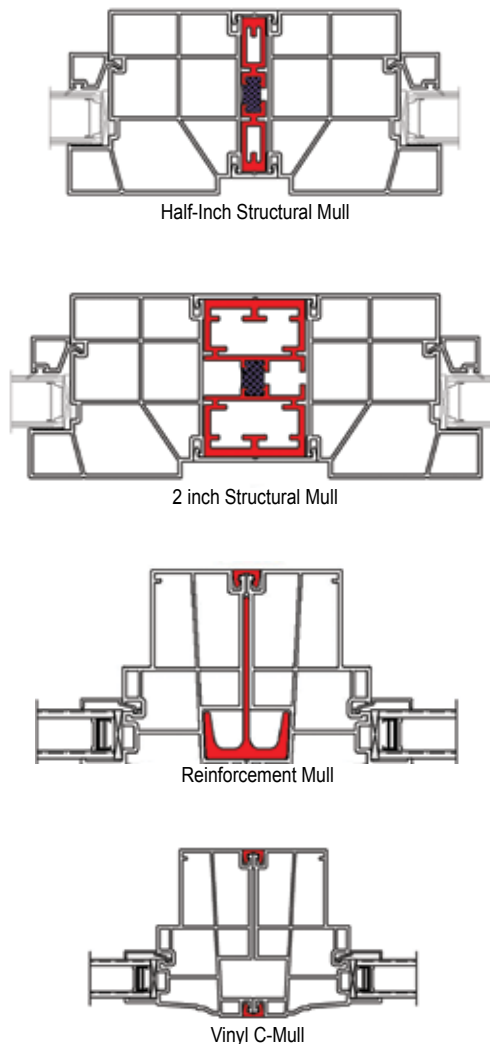

High Performance Exterior Paint Colors

Optional high-performance exterior paint meets AAMA 615 performance requirements. Adhesion- promoting additives and heat-deflecting pigments ensure fade resistance and a long-lasting appearance. Choose from 12 readily-available colors. Got a special color in mind? Our custom painted exterior capabilities are up to the task.

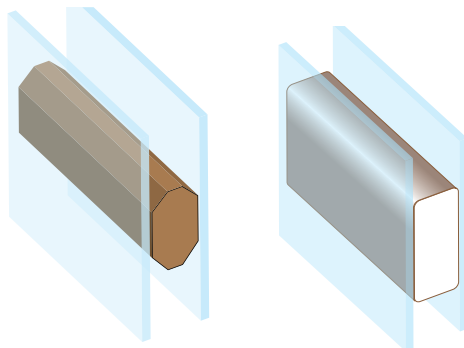

Structural Mulling System

Achieve your DP specifications with one of our specially developed mulling systems.

Grids Between the Glass (GBG)

Optional GBGs add a distinct style to your windows and are maintenance free.
